### Covid-19: General notes

The knowledge gained in handling the Covid-19 virus will have an influence on future consular entry formalities. Every region, every state, every economic area (EU) will monitor the development of the global pandemic and react flexibly with measures for dealing with business travelers and tourists. This flexibility will lead to a highly dynamic change in regulations and entry formalities. A generally valid information about entry, exit and return regulations is hardly possible.

A good overview can be obtained from the [Foreign Office](#) and the respective local representations of the [Federal Republic of Germany](#).

### Fact Check

The German Visa and Consular Society analyses the requirements and possibilities of entry to all destinations worldwide on the basis of official sources, research and discussions with authorities.

## Medical hint

Prevention is better than cure. This also applies to traveling in the world. Preventive measures depend on the destination, the season in the destination, the duration of the trip and the style of the trip, as well as individual needs and special activities during the trip.

The German Visa and Consular Society can not carry out individual travel medical consultations. Please contact for:

Prevention measures for short trips

The danger of short trips is often the lack of preparedness and preparation. While vaccinations and malaria prophylaxis may seem annoying, even a short trip to a high-risk area can be life-threatening. Do not renounce prevention measures.

Hygiene rules when traveling

Travel hygiene includes various topics:

- Food and especially drinking water hygiene
- accommodation hygiene
- sexualhygiene
- the personal hygiene
- the psyche.

Follow the proven motto: "peel it, cook it, boil it or leave it". Consume clean food and clean drinks. Many inconveniences can be spared for the most common travel illnesses:

- Nausea and diarrhea,
- fever
- Skin problems.
